

Cedar River Segment: Jones Road to SE 216th Street

Jones Road

SE 216th Street

What does this segment look like today?

One lane in each direction;
occasional transit-only turn outs.

What are the problems?

Safety: A portion of this segment north of SE 216th Street is part of a high accident corridor. Rear end accidents account for many of the accidents.

Traffic Backups: There is frequent truck traffic and limited opportunities to pass slower vehicles.

Safety and Traffic Backups: Vehicles stopping to make left turns at points on the road without left turn lanes create traffic backups and safety concerns.
